THE WADDEN

UNESCO World Heritage the Wadden Sea is located in the north of the Netherlands. An authentic area, ideal for lovers of nature, food and culture. Charming villages, an ancient maritime man-made landscape and stunning untouched countryside; the Dutch area around the Wadden Sea is so much more than beaches, dykes and the sea. This is an area filled with stories, unexpectedly beautiful spots and interesting monuments.

Take in the sturdy Romanesque churches, ancient waterways and water works, small restaurants where salty vegetables and seafood are used as ingredients and special Land Art that emphasises the sense of place.

The Wadden is an old and authentic area connected by bicycle and walking routes, and is perfect for those looking for some rest, countryside and culture to take a surprising and inspirational trip or excursion. Whether you are looking for an eco-destination, allotment, a tailor-made group trip, a weekend break or a day trip. We are happy to help (online) tour operators finding their way.

PLACES TO STAY

The Wadden provide an extensive selection of overnight accommodation, from charming B&Bs and small-scale campsites to luxury hotels. Our team will help you to get in touch with the right accommodation that suits the needs of your clients.

PACKAGES
